*For ePAFs (i.e. Smart Forms) only, use 'Pay Scale' instead of 'Work Hours' if Research Assistantship activities are related to the student's own program of studies (e.g. thesis). Hours of work on appointment letter should be indicated as 'not applicable' as these students are receiving financial assistance to work on their graduate program.

**Use 'Work Hours' for Teaching Assistantships and those Research Assistantships where the work does *not* directly relate to the student's own program of studies. Hours of work should be noted on appointment letter as these students are receiving payment for a specified number of work hours (maximum 12 hours/wk).
